KEYSTONE STAINLESS STEEL POLISH AEROSOL

Section 1. Chemical product and company identification

Product name : KEYSTONE STAINLESS STEEL POLISH AEROSOL

Recommended use and

restrictions

: Aerosol

Use only for the purpose on the product label.

Product dilution information : Not applicable

Supplier's information: Ecolab Inc. Institutional Division

Hazard statements: Flammable aerosol.

Contains gas under pressure; may explode if

heated.

May cause drowsiness and dizziness.

Harmful to aquatic life with long lasting effects.

Precautionary statements

Prevention: Keep away from heat, sparks, open flames and

hot surfaces. - No smoking. Pressurized container: Do not pierce or burn, even after use. Use only outdoors or in a well-ventilated area. Avoid release to the environment. Avoid

breathing vapor.

Response :

Section 2. Hazards identification

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or

physician if you feel unwell.

Storage : Protect from sunlight. Do not expose to

temperatures exceeding 50 °C/122 °F. Store in

a well-ventilated place.

Disposal : See section 13 for waste disposal information.

Other hazards : None known.

Section 3. Composition/information on ingredients

Specific hazards arising

from the chemical

Section 5. Fire-fighting measures

Flammable aerosol. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. Gas may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back, causing fire or explosion. Bursting aerosol containers may be propelled from a fire at high speed. Runoff to sewer may create fire or explosion hazard. This material is harmful to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.

Hazardous thermal decomposition products : Decomposition products may include the following materials: carbon dioxide

carbon monoxide

Specific fire-fighting methods

: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.

Special protective equipment for fire-fighters Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

Personal precautions

Environmental

: Use personal protective equipment as required.

: Avoid contact of large amounts of spilled material and runoff with soil and surface waterways.

: Use a water rinse for final clean-up.

Section 7. Handling and storage

Product AS SOLD

: Store and use away from heat, sparks, open flame or any other ignition source. Liquid and vapor under pressure. Do not puncture, incinerate or store the container at temperatures above 49°C (120°F) or in direct sunlight. Use only with adequate ventilation. Wash thoroughly

after handling.

: Keep out of reach of children. Keep container

Appropriate engineering controls

: Use only with adequate ventilation. If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits.
