ESSAY QUESTION

We are interested in you telling us about your experiences in the Honors Program, specifically an experience that pressed or challenged you in some way. The purpose of the writing isn't necessarily to promote Honors. It's more about capturing your honest, thoughtful reflection, a reflection that places you at the center of the narrative. With this in mind, tell us about the nature of the challenge. Were you prepared or under-prepared for it? Was it meaningful? How? Has the experience extended beyond the particular class or transferred to your overall approach to learning? We are looking for thoughtful, developed responses, so you will want to aim for at least 300 words.
