TEPL 1410	Plumbing IVA	3			
TEPL 1420	Plumbing IVB	3			

The Weber State AAS in Construction Apprenticeship is designed to bridge the gap between technical education and construction management. This degree will help apprentices and journeymen enter the management side of their trade. This can also reduce the time required to become a master through educational experience.

- Program Prerequisite:** Journeyman's License, Certificate of Completion from the Office of Apprenticeship (OA), or Certificate of Completion from the post-secondary institution offering an OA certified program.
- Grade Requirements:** The student must earn an overall GPA of 2.00 (C) or better in all courses and must also earn a "C" or better in each of the core and elective courses (**a grade of "C-" is not acceptable**).
- Credit Hour Requirements:** Students must complete a minimum total of 63 credit hours, which includes a minimum of 20 credit hours of WSU residency (WSU courses), and exactly 40 transfer credit hours granted for having completed a certified Office of Apprenticeship program.

Advisement:

All Construction Apprenticeship students are required to meet with an academic advisor in the WSU College of Engineering, Applied Science & Technology (EAST) to establish a program contract plan, before entering the program.

Admission Requirements:

Regular university admission requirements apply and proof of a completed program prerequisite must be provided. Students will receive 40 hours of transfer elective credit toward an AAS in Construction Apprenticeship degree upon completion of all WSU graduation requirements.

Program Learning Outcomes:

Upon completion of this program, the student:

- Will be able to explain the essential concepts of Construction Management.
- Will be able to communicate effectively, in both spoken and written formats.
- Will be able to explain the basics of construction contracts, along with the application of ethical principles in construction.
- Will possess basic computer skills used in construction.
- Will be able to demonstrate skills required in construction jobsite management.

Assurances:

This agreement is in effect only when all criteria and conditions of the Career Pathways Program and Student have been met. Selection criteria must be met for acceptance into each postsecondary program. Program requirements from either partner may change without notice.

- A. A seamless transition from secondary to postsecondary education and training exists.
- B. Students will be accepted into the postsecondary portion of the program according to application criteria.
- C. Postsecondary institutions accept the transfer of articulated secondary level concurrent credits awarded to high school students.
- D. Dual and concurrent enrollment and other credit transfer options are well defined between secondary and post secondary partners.
- E. Compliance with approved Board policies.

Outcomes: Secondary: Career pathway students will: have career goals designated on SEOP, earn concurrent college credit while in high school, achieve a state competency certificate and while completing high school graduation requirements.

Post-Secondary: Career pathway students pursuing the above program will earn a A.S./A.A.S Degree
